

The 4-H Homeschool Clover Club is a member run organization where children learn leadership through adult mentoring and life skills through discussion of upcoming events, voting for officers when necessary, doing practice presentations, having social/game time, science fair competition, sponsoring an area wide art show, doing community service projects and taking classes on science related topics.

We meet the 1st Thursday of the month for a business meeting and social time and the 3rd Thursday of the month for a science class at the Campbell County Extension Office from 2pm-4pm. Participation is open to homeschoolers 5-18 years and is FREE.

For additional information, please contact the Campbell County Extension Office at 332-9528 or email Dawn Cowart at Dawn.Cowart@yahoo.com.
